Today is day I've been waiting for. For the first time in years I am under 300lbs! Total weight loss since surgery day is 67.4 lbs

Wooooooooo!! That's so awesome!!!

This was the one that I had as like a milestone in my head

I knew the sx would work, but I'm still so surprised to actually see the number

So happy for you!! It's a wild ride seeing it drop
